ITALIANS ADVANCING

TEUTONIC ALLIES IN
EAST PRESS STEAD-
ILY ON.

PARIS, Nov. 6.—In house to house fighting in the little battle-ridden village of Sailly-Saillisel, on the Somme front, the Germans have gained a little fresh ground. This German success was admitted in the communique issued by the French war office today.

Furious attacks were made by the Germans at a number of points on the Somme front during the night. These were especially severe between St. Pierre Vaast wood and Sailly-Saillisel. However, the Germans were able to make progress at one point only.

Elsewhere on the front, the communique says, the night was calm.

MILAN, Nov. 6.—Italian forces operating on the Carso plateau south-east of Gorizia are on the point of entering Castagnavizza, says a despatch from the Italian front today. The Austro-Hungarians in the town have been violently bombarded. Castagnavizza is between seven and eight miles from Gorizia.

PIERCE FIGHTING IN EAST.

Austrians Break Opposition in the Transylvania Alps.

BERLIN, Nov. 6.—Increased pressure marks the blows which the Austro-German armies in Transylvania are delivering against the Russians and Rumanians.

Between Rothenburg and Predeal Passes, in the Transylvania Alps, the forces of General Von Falkenhayn have broken the resistance of the Russo-Rumanian army north of Campolungo. Efforts of the Russians and Rumanians to re-capture Mount Rosa, which was taken by Von Falkenhayn's men on Saturday, have all been repulsed, it is stated in telegrams from the front today.

Fighting of the most furious character is in progress around Clabucet, a fortified mountain peak which the Austro-Germans have taken from the Rumanians.

Heavy losses have been inflicted upon the Russo-Rumanians. Some of the mountain ravines are reported to be literally choked with corpses.

GENEVA, Nov. 6.—Prince Leopold of Bavaria, commander of the Austro-German forces in Russia, probably will be proclaimed king of Poland. Simultaneously with the issuance of the proclamation in Berlin and Vienna granting political freedom of Poland, it was reported that a Bavarian prince would be placed upon the throne.

The North German Gazette, one of the most influential newspapers in Germany, in commenting upon the deliverance of Poland from Russian rule says:

"Each time Poland trusted England's promises for aid in getting her independence nothing resulted but empty words. Germany has now liberated Poland and has been the true protector of small nations."

VIENNA, Nov. 6.—A delegation of Poles were received in audience today by Baron Burián, the foreign minister. They gave assurance that Poles would not fight against the liberators of their country. Emperor Francis Joseph has written to Dr. Von Koerber, the Austrian premier, ordering him to prepare at once the necessary order granting autonomy to Galicia.

SCOTT DENIES REPORT.

WASHINGTON, Nov. 6.—General Hugh L. Scott, chief of staff of the army, denied there was any truth in a report from San Antonio that an order had been issued for General Pershing's expedition to prepare for activities in Mexico after election. Other high officials of the war department declared the report was ridiculous.

ENDS LIFE WITH GUN.

Darke County Democrats Repudiate Story of a Bolt

By David W. Bowman.

As predicted in The Times-Democrat last Friday, the republican press of the Fourth district has not only nibbled at the hook, but has climbed into the boat after bait, on the fake story of a bolt against Ben. F. Welty in Darke county. Documentary evidence accumulated over Sunday verifies the assertion, made by this paper, that the entire frame-up was a scheme arranged in the Russell camp and based on misrepresentation.

The following testimony speaks for itself:

Exhibit A—Letter to the voters of the district, signed by twelve leading democrats of Darke county, whose names were either forged to the Russell endorsement or used without the knowledge or sanction of the undersigned:

Certain literature has been recently distributed throughout the various counties of the Fourth congressional district, purporting to emanate from the Wilson and Marshall club of Greenville, Ohio, and intended to bring about the defeat of Hon. B. F. Welty, the democratic candidate for congress from this district.

The undersigned, whose names have been used in connection with the organization of the so-called Wilson and Marshall club desire, emphatically, to repudiate any connection whatsoever with this matter. During the campaign of 1912, a Wilson and Marshall club was organized in Darke county. Its membership included the best democrats of the county, and reached the figure of approximately three thousand. This club disbanded with the election of President Wilson in that year. It has never been reorganized, and there is today no democratic organization in Darke county bearing the name of Wilson and Marshall club.

A small group of perhaps one-half dozen individuals appropriated the name a few months ago and published in the newspapers of the county a statement to the effect that the club had been organized. Our names were used in connection therewith as officers

of the organization and members of its various committees. Such use of our names was without authority and without our consent. We are democrats in sympathy with Mr. Welty's candidacy. We unhesitatingly repudiate this attack and scorn the methods that have been employed, and trust that no voter of this district, be he democrat or republican, will be deceived by this shameful attack carried on under the name of our beloved president.

Respectfully,

J. M. BICKEL, ex-Probate Judge.
L. L. HOWARD, School Teacher.
CARL DEUNER, Merchant.
C. A. LONGFELLOW, Farmer.
M. G. DEMOREST, Merchant.

WM. SCHLECHTY, Farmer.

B. T. HUGHES, Auto Dealer.

W. A. BROWNE, SR., Editor of Greenville Daily Advocate.

Exhibit B—Letter to the voters of Darke county, sent out by the democratic county executive committee:

You will probably get a dirty political cartoon and a marked sample ballot against B. F. Welty, now being sent out by Ira McGriff and George Vorhis, representing themselves to be chairman and secretary of the Wilson-Marshall club of Darke county, Ohio.

This is a fraud, as they are only chairman and secretary of a few disgruntled office seekers under the guidance of Ed. Williams, who have organized this so-called Wilson and Marshall club for the sole purpose of deceiving the people, and thereby try to defeat some of our county candidates along with Mr. Welty. Warn every voter as to who is at the head of this gang of bolters; and that, after the democrats of this county have kept Williams in office for fourteen years, he now attempts to defeat the very people who have so graciously provided for him and his family, and has the gall to ask the democrats of

TWO LIMA MEN DIE IN CRASH ON L. E. AND W. ROAD

KILLED.
Clarence Sheely, 23, fireman, 206 Water street.
Philip Wilhelm, 21, student brakeman, 606 North West street.
Injured.
Frank Ley, 30, conductor, 1009 Holmes avenue.
D. W. Stemen, 30, brakeman, 331 West Kirby street.
Philip Sauter, 10, engineer, 715 Albert street.

As a result of a head-on collision between two freight trains yesterday morning about 2:45 o'clock, at Fremont, two Lima men were instantly killed and three local men were injured. Wilhelm's body was brought to this city yesterday afternoon and the remains of the other unfortunate shipped here this morning.

All of the injured men were able to return to their homes following the accident, their injuries for the most part being of a minor nature. All of the victims of the accident were on the first section of train No. 62, eastbound freight. This train collided with the first section of train No. 63, westbound freight.

Superintendent Dyer, of the L. E. & W. railroad and several other officials of the road went to Fremont this morning to investigate the cause of the accident. It is believed that a misunderstanding of orders was the cause of the collision. Officials of the road state that a careful probe of the accident will be made.

According to the crew of both trains, it is evident that neither of the trains were making especially fast time, as they were both required to pick up cars in Fremont.

The two men killed were riding in the cab of the engine drawing train No. 62.

The cab of this engine was entirely demolished; a dozen box cars were wrecked; two stock cars crushed and two oil cars crushed. Fire broke out in the debris following the crash and the Fremont department was called to the scene to quench the flames.

Clarence H. Sheely, 21 years old, son of Mr. and Mrs. John Sheely, of

NEW YORK, Nov. 6.—The final word from Vance C. McCormick, democratic national chairman, today was a reiteration of his prophecy that President Wilson will have at least 364 electoral votes, or 98 more than enough to win.

"Everything looks rosy," said the commander-in-chief of the Wilson forces.

McCormick will vote at his home in Harrisburg, Pa., tomorrow morning, returning to headquarters in the afternoon to receive returns.

SHADOW LAWN, Long Beach, N. J., Nov. 6.—Supremely confident that tomorrow's election will vindicate his policies, President Wilson rested today on the eve of the balloting.

A basketful of telegrams poured in this morning from democratic leaders in doubtful states. These assured the president that with the opening of the polls less than 24 hours away, the tide continues strongly Wilsonward.

Some of them came from men whom the president knows well and in whose judgment he has the highest confidence. Others were from local leaders, particularly in the middle west, who vied that republican claims of a swing back to Hughes were utterly without foundation.

The most confident note was struck in the messages from Ohio. The Ohio democrats not only promised the president the state's electoral vote but pledged it by a substantial plurality.

A flock of messages came from Indiana, bringing predictions of a Wilson victory and the re-election of Senators Taggart and Kern. There were other telegrams from Michigan, Illinois, Minnesota and New York.

The president skimmed through the papers today for any possible developments in the campaign. He had no important activities in view for the day. Tomorrow morning he will leave early for Princeton to cast his vote. He will return to Shadow Lawn immediately and receive the election returns tomorrow night in his study.

It is understood that only members of his immediate family will be with him through a gathering of his closest political associates will get the news at the executive offices at Ashbury Park.

So confident were some of the democrats who wired the president that they attached words of congratulations on his victory to their assurances.

President Wilson played golf in the crisp morning air. This afternoon he will receive Ignace Paderewski, noted pianist, and Charles S. McFarland, of the Federal Council of Churches, of Christ in America. McFarland will ask him to incorporate in his Thanksgiving proclamation an appeal to the American people to contribute to the relief of European war sufferers.

Attaches of the summer white

house are already preparing for the president's return to Washington after the election. An express car on the siding at the West End station is being filled with household goods.

CHARLIE CHAPLIN AGAIN!
At Strand in "One A. M.", today.

FAKE BROTHERHOOD RAILWAY MEETING IS BAD INVESTMENT FOR THE POLITICIANS

Advised as a railroad meeting and engineered by the local republican executive as an eleven-hour attempt to swing the local labor vote for Hughes, the Memorial hall meeting yesterday afternoon turned out to be a pathetic failure. If it were not so humorous it would be pitiful, but the writers of movie scenarios could make a ten-strike with a set of films dealing with "The Bumps of Ballis, or The Frost Is on the Slumpkin."

A handful of railroad brotherhood men, a bunch of inactives on the retired list—it might be added, thanks to the generosity of the railroad owners now contributing to the Hughes campaign fund—were in attendance, with about nine asleep during the greater portion of the meeting. A scattering of women, who can't vote, lent a touch of suffrage to the Hughes meeting. The real procession was the arrival of the local republican leaders, in a line of march something like the following:

James W. Halfhill
W. L. Parmenter
Harry E. Simonson, acting chairman of the executive committee
Jimmie L. Hefner, clerk of council
Mayor Ballis H. Simpson, who knocked the eight-hour day at a meeting of the chamber of commerce
"Big Charlie" Evans with his hat
Frank Downing, of the civil service commission
Arthur J. Morris, clerk of the election board
Capt. Gale, present in spirit.

Before the meeting the local railroad brotherhood men sought out something they had already suspected. To George Shambow, of 518 West Market street, a member of local 678, B. of L. E., and others, H. O. Parrott, one of the speakers, admitted that he was in the pay of the republican state committee. Neither he nor his mate, W. O. Jackson, were invited by the local brotherhood nor sent by the brotherhood. Parrott is a Hocking Valley engineer, but he didn't know what Jackson did for a living, he admitted. The pair then wanted Shambow to preside, but he refused point blank.

When the meeting started, with more curiosity-seekers present than anyone else, a few of the local railroaders sent up a note asking Jackson to ask how many brotherhood members were present. He tossed it on the floor with a sneering expression.

Jackson was the first speaker. He hadn't an argument against the Adamson bill, but he began to kick up the dust by reading excerpts from The Congressional Record. Evidently he wasn't familiar with the matter, for he hesitated much in reading and mispronounced plenty of words. The crowd began to dwindle and Mayor Simpson, who was presiding, began to get nervous. At first they went singly or in pairs, but as Jackson began to get strong for Hughes the audience began leaving in bunches. When the speaker finished and Parrott was called upon, the crowd was about the size of a republican committee meeting. Parrott hadn't any more than started (than the railroaders got disgusted and left in delegations of six or eight).

How the thing finally ended is still a mystery.

DEMOCRATS WILL FOIL ALL G.O.P. FRAUD PLOTTERS

Roused by a timely warning from the state executive committee, the local Democratic campaign managers have taken all needed precautions to prevent illegal voting by men who have registered illegally or are otherwise not entitled to a vote. Reports of frauds in Cleveland, Cincinnati, Columbus, Pittsburgh, St. Louis, Indianapolis and Dayton, the state committee has prepared for the arrest and prosecution of any who may try to perpetrate frauds in Lima.

Colonization of voters, involving the importation of thousands of colored laborers in the doubtful state, has been made the object of federal investigation, and the state committee today authorized the county committees in all counties containing cities to be ready for the appearance of fraud in their communities.

The fact that several hundred negro workmen employed by railroads and construction companies are in or near Lima has put the local democratic managers on the alert, and plans were completed this morning to have warrants ready for filing in each attempted case of illegal voting.

Justice of the Peace C. P. Morris has been selected to be in readiness all day tomorrow for such cases and Attorney Warren J. McLaughlin, the only lawyer on the county executive committee, will represent the committee and act as legal advisor to the party chiefs.

The telegram of Chairman William L. Finley, of Kenton, head of the state executive committee, is as follows:

Columbus, O., Nov. 6.
J. Miller Laudick:
We have won this election. It is up to us to keep it won. In view of the desperate situation in which the republicans find themselves and in view of the enormous corruption fund and which is all they have, I suggest that you procure one or more lawyers who will volunteer their services on election day to take promptly into court any persons attempting to violate the law. Arrangements should be made to have a magistrate or judge sitting in the chambers during the entire day, before whom these lawyers may appeal for warrants and by whom hearings may be heard immediately and those guilty locked up. A few arrests early in the day will have a very wholesome effect. Unless some magistrate or judge is secured to be on hand all day and unless some attorney is at the call of the chairman, little can be accomplished, as too much time will be wasted in getting a magistrate or judge. Announcements should be made that such lawyers have been procured and will be on hand all day, that watchers have been procured to report promptly to headquarters all violations of the election laws, and that arrangements have been made for these lawyers to swear out warrants for the arrest of all violators of the law. The unlawful attempts threatened will be by bribers and bribe takers and colonized voters who attempt to cast a ballot. You may proceed with the execution of this suggestion with the full assurance of the backing of both national and state committees.

W. L. FINLEY, Chairman.

Cause of Constipation.
Constipation results from a lack of moisture in the residual matter of the food. To effect a permanent cure more water must be taken into the system. Drink a full glass of water half an hour before breakfast and about the third of a glass an hour and a half after each meal, also eat an apple or banana before breakfast and before going to bed. Make sure that your bowels move just after breakfast whether there is an inclination or not. When a medicine is needed take Chamberlain's Tablets as they are mild and gentle in effect, but no medicine should be taken when operations can be induced naturally each day. To effect a permanent cure time and patience are required as bad habits are more easily formed than broken up. Obtainable everywhere. m-w-f

STRUCK BY AUTO.

Donald Clay, 11 years old, son of Frank E. Clay, city fireman, was struck by an automobile while riding his bicycle on the Pine street bridge last night. He was bleeding at the nose and his back was injured. He was removed in the Whitley ambulance to his home in East High street.

Charles Green, employed in the yards of the Lake Erie and Western railroad, fell from a car there this morning. He sustained sprains and bruises. Green alighted on his head. He was removed in the Whitley ambulance to 939 South Elizabeth street.

COLUMBUS, O., Nov. 6.—Twelve hundred thousand Ohioans will cast their votes before nightfall tomorrow for electors of a president and vice president of the United States, a United States senator, a governor, lieutenant governor, secretary of state, and treasurer of state, and two judges of the Ohio supreme court.

Congressmen are to be elected in the 22 congressional districts and a state senate of 36 members and a state house of representatives of 128 members are to be chosen. County officers are to be elected in each of the 88 counties, and in many cities bond issues are to be voted upon.

Ohio is on tiptoe awaiting the result—not only because the issues have stirred the blood of people, but also because the average observer concludes from the numerous straw ballots, the consensus of forecasts by leading partisans, the curse of the betting odds, and various indications that the result will be a close one.

It is easy to find those on either side who will tell you to a dot just how each of the 88 counties will go, but as the predictions of Democratic State Chairman W. L. Finley and Republican State Chairman C. S. Hatfield are decidedly out of har-

mony, the best one can say is that many counties are in doubt. In 1914, 1,161,970 votes were cast in the state, and of these 1,129,223, or .979 per cent were cast for governor as follows:

Willis, republican 523,074; Cox, democrat 493,804; Garfield, progressive 60,904; Wilkins, socialist, 51,411.

The 61,000 Bull Moose votes will be lined up this year either with the republican or democratic parties. The republicans claim 90 per cent of the votes, while democrats claim one-third, so there again claims are not harmonious.

Heavy registrations indicate that practically Ohio's complete vote will be out, and this will bring the count well over 1,200,000.

Both national chairmen have made a determined drive for Ohio's 24 electoral votes, as the closeness of the straw votes indicate that Ohio may be the pivot which will swing the national election.

The second United States senator to be chosen directly by the people will be elected tomorrow. The rival candidates are Senator Atlee Pomerene, democrat and Colonel Myron T. Herrick, republican. Pomerene was elected by the state legislature six years ago. He was lieutenant governor at the time. Herrick served one term as governor, was defeated for a second term and was ambassador to France when the European war broke out.

Two years ago Senator Harding was elected senator over Timothy S. Hogan, democrat, by a plurality of 102,373. A total of 1,070,179 votes was cast.

Harding 526,115; Hogan 423,742; Garford, progressive 67,509; Hitchens, socialist 52,803. Harding carried 71 counties and Hogan 17.

State leaders realize that the presence of presidential candidates in the field alters the situation and that the state and senatorial tickets may go as the presidency goes in Ohio. They figure this because the complex ballots may prompt voters to vote a straight ticket for fear of losing their votes.

The work of the state chairmen was practically through today. They said they had done their part and that now it was up to the precinct committeemen to get the vote out.

STEINKE TRAGEDY IS ACCIDENTAL

Amputation of Limb of Bereaved Wife Not Deemed Necessary.

According to the verdict of Coroner S. G. Goode, the accident at Swanders in which Mrs. John Steinke, of Sidney, was injured so seriously that she was brought to the Lima city hospital for treatment, was not the fault of the engineer in charge of the train. The husband, John Steinke was instantly killed in the crash.

Physicians in charge of the Steinke case at the hospital were at first fearful that amputation would be necessary to save the unfortunate woman's limb. However, so far they have avoided this and are in hope that no complications will set in that would make this action advisable. The accident occurred when the Steinke's automobile was struck by a C. & D. passenger.

FINANCE COMPANY WILL COME HERE

One of the latest concerns to open offices in Lima is the Auto Finance company, of Chicago. The new enterprise is a branch of a Chicago concern and will be backed to a large degree by local business men.

The purpose of the company is to finance men with limited capital who desire to purchase either pleasure or commercial cars. The quarters of the company will be in the Opera House block after November 15.

Date of Three Other Trials of Men Indicted on Like Charges Are Set.

The trial of Eddie Hall, indicted for attacking Sheriff Sherman E. Eley, with attempt to lynch Charles Daniels, colored, has not yet been decided upon, according to the statement of Prosecutor O. O. Barr, made this morning. Mr. Barr said the trial of Hall might be begun this week, but nothing definite had been decided upon.

Originally the trial was set for October 30, or last Monday. On account the trial of George Saxby, indicted on a like charge, was being held, the Hall trial was postponed.

Trials of Agnes Densmore and Gilbert Fox have been set down for Monday, November 13. L. E. Ludwig was appointed by the court to defend them. The trial of August Decamp is set for the Wednesday following. Trials of the other men indicted have not yet been decided upon.

To Men Who Think!

For weeks your intelligence has been insulted by false statements contained in page advertisements paid for by the Republican National Committee and by members of the Republican Old Guard who waxed fat under a Republican tariff that worked all the time for their Republican pocketbooks and against yours.

These high priests of special privilege are trying to make you forget.

They want you to forget that they themselves were responsible for the Republican panics, the inevitable results of years under Republican tariffs—the panics of 1873, 1893, 1903, 1907 and 1913.

They want you to forget the want, the misery, the despair caused by these Republican panics.

They want you to forget the strikes and lockouts at Homestead, at Paterson, at Lawrence, at Fall River, at Cripple Creek, at Wilkesbarre under Republican rule.

They want you to forget the days when Republican tariffs worked with machine-like precision; when men and women who longed to do right were driven to acts of desperation in order to keep body and soul together.

Or, if You Will Remember--

They hope, by talking of business disaster and unemployment, to make you afraid to vote as your conscience and common sense dictate—for President Wilson.

But Facts Knock Their Misstatements Cold

If there was the slightest danger of a business let-up following the return of peace—

WOULD HENRY FORD, a Republican and head of an industry employing 45,000 men, be supporting President Wilson?

WOULD GEORGE F. JOHNSON and H. B. Endicott, of the Endicott-Johnson Company, Republicans, and owners of the largest shoe manufacturing in the world, be supporting President Wilson?

WOULD ISADOR JACOBS, independent, and President of the California Canneries Company, the largest concern of its kind in America, be supporting President Wilson?

WOULD F. D. UNDERWOOD, Republican, and President of the Erie Railroad, be supporting President Wilson?

WOULD THOMAS A. EDISON, Republican, the world's greatest inventor and employer of thousands of men, be supporting President Wilson?

WOULD THE IRON AGE, in its November, 1918, issue, say:

"The pig iron market of the past two weeks is practically without a parallel in the experience of present-day producers. The advances are unprecedented, it being due, not to a clamorous demand for iron for quick shipment, as in all previous excited markets, but to a simultaneous effort of buyers to cover far forward requirements—in many cases through the second half of 1917."

The annual missionary convention of the Christian and Missionary Alliance, which has been in session in Lima since Thursday at 130 1/2 East Market street, closed last night. The meetings were held both afternoon and evening with large audiences in attendance at each session. Yesterday afternoon the yearly missionary pledge offering was received and more than \$1,000 was subscribed. This was more than double any former contributions.

Rev. W. L. MacArthur, Springfield, Mass., has been in charge of the meetings and delivered sermons at each session. Rev. J. R. Cunningham of South China, and Miss Ethel M. Wyeth of India, were missionaries who lectured during the convention.

The meeting was one of the most successful that has been held at the Christian and Missionary Alliance hall for some time. This mission church has sent several persons into the foreign fields and the Lima con-

gregations have aided much in the foreign work through contributions. The meetings were arranged by Rev. Roy Arnold and his co-workers.

While in the city the Rev. MacArthur and Rev. Mr. Cunningham were entertained in the home of Mrs. Adam Neiswander, 760 South Broadway. Miss Wyeth was a guest at the home of Mr. and Mrs. Albert Neiswander.

LIMA IS LUCKY
to Have Natural Gas
Gas Service eliminates the dirt. It eliminates the work, the worry. Yet it gives you better heat. Ask any man who uses Gas Service for cooking or to heat his home. He'll tell you that Gas Service is clean, convenient, comfortable and dependable. He'll tell you, too, that it's economical. So why shouldn't you have the same advantage? Lima will get ALL the gas that can be supplied from the Medina fields this year. No one knows just how much this will be. This company simply says: Burn gas in your furnace every day you can; it's cheaper and cleaner. But always keep a little supply of wood or coal in the bin for breaks in the line and freeze-ups, as Lima gas is piped nearly 150 miles. Past experience shows, no one can predict a constant supply of Natural Gas.

Wall Street's "Efficient" Candidate
Anything to Beat Wilson? Anything to Deliver to Nation? Wall Street!

Verily, never before did a self-styled "Anything to Deliver" candidate so vain a fight against the hosts of a liberated, enlightened democracy.

The forlornness of the struggle can never condone, but it may account for the most malicious campaign ever waged. Misrepresentation, vilification, abuse, cunning, trickery, knavery, artful dodging and evasion—these are the weapons General Anything has used in his vain effort to beat Wilson.

By stress of circumstances a Pussyfoot, a Molluscoid, General Anything—Charles Evans Hughes—has preached "America Efficient." By the record of his campaign can you see him as an efficient president?

Here is the record in brief:

Uses Roosevelt as bait for progressives while he calls himself only "the representative of the regular republican party."

Blindly endorses Roosevelt's traitorous Lewiston speech; proclaims himself to be "in complete accord with Roosevelt"—later under fire repudiates what Roosevelt stands for but hangs on to Roosevelt.

Frames the fake kiss-and-make-up meeting between irreconcilable T. R. and Taft. Fools nobody, disgusts thousands.

When Hughes speaks, the band plays "Onward Christian Soldiers." Progressives haven't forgotten republicans' ridicule for using that hymn.

Roosevelt has turned so many votes from Hughes that he is suspected of being in the pay of the democratic party.

Sends a special train of Wall Street women who never voted to tell the women voters of the west how to vote!

"Would wipe out the whole democratic legislation"—most of which was supported by a majority of republican congressmen.

"Whatever is, is wrong"—Currency Reform, Rural Credits, Workmen's Compensation, Emancipation of Child Labor, all fundamental planks in the progressive "contract with the people."

Sneers at the child labor law!

Steadily ignores the insistent demand that he take a positive stand on any one solitary debatable matter.

Maintains cowardly silence while the nation faces strike disaster; falls as his party's leader to say what republicans should do.

Discovers a "National Emergency" in the eight-hour law—after a majority of republican representatives had voted for it.

Takes three different attitudes on the eight-hour law—each time alienating a new group of voters. Attacks the eight-hour law through one H. N. Pope, alleged to have the endorsement of the Farmers' Union. That Union passed no such resolution, and repudiated Pope.

Demands "arbitration" of eight-hour question and "immediate" repeal of Underwood tariff.

Stoops to secret conference with the hiring O'Leary to "deliver the hyphen and Irish vote." Utter and predestined failure.

Through Penrose and \$400,000 and the hiring Feeney tries to "deliver" the nation's labor vote.

Uses in speeches and full-page ads a six-year-old editorial endorsement by a labor leader who is now for Wilson.

Sidesteps Gompers' charge concerning Justice Hughes' decision in the Danbury Hatters' case.

A pamphlet, "Dedicated to Workmen," cites three decisions while on the bench—to "show that he was indeed YOUR FRIEND on the bench!" Did that besmirch the spotless ermine of the supreme court in the muddy turmoil of politics? Ask Joseph H. Choate.

Insults all America by calling our prosperity a "Fool's Paradise."

Asserts that our prosperity is due to war, when only 4 per cent of our commerce is foreign!

To our unprecedented prosperity, conjures a bogey of "Can't compete," ignoring that Europe won't have anything to "dump" and that a non-partisan tariff commission and an "anti-dumping" law provided by the Wilson administration will save us from any such possibility.

Prophecies hard times after the war if Wilson is re-elected. The Panics of '69, of '73 to '78, with its

Black Friday, of '83, of '03 and of '07 all were under republican pressure.

"Prosperity can only endure under a republican administration." Under a republican high tariff in 1907 the country fell into a panic and a democratic tariff in 1914, though facing a world catastrophe, the country was swept into prosperity.

"Preparation for trade competition which shall protect all groups of workmen." By a tariff such as Mark Hanna & Company, wrote in secret, or one by the Lodges, Cranes, Manns, Cannons, Morgans and Rockefeller's, now desperate to elect Hughes.

"Government oversight of business." Trust busting and fat frying, eh?

Replying to the poster, "He Has Protected Me and Mine," with "He Has Neglected Me and Mine," fails to put in the background the "crooked alliance between crooked politicians and crooked business" that Wilson HAS neglected.

Ridicules "Wilson kept us out of war!" But Washington kept us out of war in 1793—and people hooted him, burned him in effigy and defamed his foreign policy as republicans now do Wilson's. So did Lincoln keep us out of war and at the same time compel England to stop outfitting confederate ships to prey on American commerce. Washington and Lincoln both "kept us out of war" by means of notes.

Sneers at Wilson's Mexican policy, but does not specify the number of American lives he would sacrifice to salvage properties of American adventurers in Mexico.

Slanders the nation's navy for the "ignominious incident at Tampico." Rear-Admiral Mayo replies: "The results justified my course."

Spent \$35,000 for an unspeakable seven-reel film, dealing with Mexico, "canned" because too repulsive.

Plays up sixth-hand smoking car gossip about a message from the president to the emperor of Germany—as an "issue."

Plays with the loss of American lives during a serious foreign crisis to create a domestic political advantage—unworthy a presidential candidate and ex-justice of the supreme court.

Violates a gentlemen's presidential campaign agreement that partisan politics should stop at our shore line.

Sneers at Wilson's great diplomatic victory over Germany, of inestimable value to neutrals, belligerents and all mankind.

Sneers at unpreparedness! That sneer should be carried to Taft and Roosevelt. Wilson began the building of an ADEQUATE army and navy.

Parrot-like, copying the tone of certain interests, red tape and gold lace, sneers at Daniels, the hardest working, most efficient secretary the navy ever had.

"The navy has gone back in marksmanship." Taft's secretary stopped elementary practice; it took some time to catch up. The fleet's most perfect scores were made last winter.

Says Wilson withdrew Ambassador Herrick from France. Fact was Herrick urged to and did remain 19 months.

"Dr. Tittman was forced from the coast and geodetic survey." Tittman says: "I resigned voluntarily—not for political reasons."

"Dr. Tittman's successor, E. Lester Jones, was a horse doctor." False. Jones was advanced from deputy commissioner of fisheries.

"Mr. Durand was retired from the directorship of census." Durand resigned voluntarily.

"Flatly contradicts—for 'national emergency' purposes—the commissioner of labor's report as to the number of unemployed."

Hughes' pet is "vacillating"—meaning "unstable, inconsistent." Hughes fits that definition to a T.

"An executive responsible to the whole nation." For what is meant by "whole nation" examine the list of contributors to his campaign fund.

From an ex-justice of the supreme court such a record was not expected, but seemingly was inevitable because of the hybrid, mongrel assortment of irreconcilable interests come together in a conspiracy to drive out the greatest president since Lincoln. In sheer desperation

they must resort to every conceivable thing under the sun in their fatuous attempt to put over "Anything to Beat Wilson."

What else could be expected? Hughes himself had said that "the man who, being in the highest judicial tribunal, would consider another office, is fit neither for the one he holds nor the one to which he aspires." "Besides," said Choate recently, "Hughes has never had any experience. No man knows his views."

Darke County Democrats Repudiate
Story of a Bolt

(Continued from page one.)
this county to support J. E. Russell, the republican candidate for congress, with whom he is riding.

This is not all they are doing: They are making a special fight on several candidates on our county ticket, for the reason that Ed. Williams was unable to dictate to these gentlemen who they should have for their deputies.

The loyalty of each committeeman will be depended upon to advise every democratic voter in his precinct of the methods used by Ed. Williams and his political henchman, Ira McGriff, the latter a son-in-law of Oscar Moist, who is now a republican candidate for county commissioner for his third term.

Democratic Executive Committee.

By V. S. MARKER, Chairman.

Exhibit C—Letter to Miami county democrats sent out by Con F. Drees, of Covington, Cunningham manager for Miami county before the recent primaries:

Covington, O., Nov. 1, 1916.

Dear Sir:

A most vicious attack has just been made by a few Darke county democrats against Hon. B. F. Welty, democratic candidate for congress. Circulars will be distributed over Miami county and the republican papers will reproduce these in an attempt to steal votes from Mr. Welty. A big effort will be made to arouse the men who supported Cunningham two years ago and again at the primary this year, in an attempt to line them up against Welty. I led the fight for Mr. Cunningham before the August primary this year, and I want to impress you with the fact that Mr. Welty won his nomination fairly and deserves the loyal support of every democrat and every republican who believes in the policies of Mr. Wilson. I am writing you now to warn you against being imposed upon by these unloyal democrats from Darke county who seek only to stir up again the old trouble that lost us a congressman. These men are working with Russell, who is the republican candidate for congress. Don't let them fool you by making you believe Mr. Welty had anything to do with Mr. Cunningham's defeat in 1914.

I am making this earnest plea to you, because you know that I was Mr. Cunningham's manager, and if Mr. Welty was guilty of the things these men charge, I would know of it. Please tell your friends to use every effort to secure every Wilson vote in the county for Welty for congress.

Very respectfully,

CON F. DREES.

Exhibit D—Editorial in the Sidney News, which supported Life Studevant before the August primaries:

A combination of five "True Blue" men calling themselves "the Wilson and Marshall club of Darke county, with a membership of 2000 are reported to have prepared a circular and sent out to the republican press and the public that the club has repudiated B. F. Welty and flopped to Russell. The whole facts out of which this last moment canard grows is that these five men in Darke county who are fighting the whole democratic state and county ticket including Senator Pomerene and Hon. B. F. Welty. That they represent 2000 voters or any appreciable number outside their five selves is a myth and absolutely without any truth in it. Their story is so absurd and unreasonable that it bears upon the face of it the evidence of its absurdity. Look out for such last hour reports and brand them with the falsehoods they usually contain.

Exhibit E—Editorial from The Tipton, Tippecanoe City, Miami county, Ohio:

According to the sworn statement of republican congressional committee, the Hon. J. E. Russell has received \$1000 for his campaign expenses. At the same time Hon. B. F. Welty reported the expenditure of \$20. Coin of the realm is apparently the one chief argument of Mr. Hughes' followers.

GOMPERS SOUNDS
WARNING TO THE
HOSTS OF LABOR

Some Employers Trying to
Coerce Workers to Vote
for Hughes.

NEW YORK, Nov. 6.—In a speech before a large labor crowd at the Hippodrome Sunday, Samuel Gompers, president of the American Federation of Labor, said he had been informed that word had been telegraphed by persons interested in the election of Mr. Hughes to many employers of labor, urging them to notify their employees that if Mr. Hughes is not elected they will lose their jobs.

The efforts of the republican party to make the tariff a paramount issue in the campaign was attacked by Mr. Gompers, who asserted that the creation of a bi-partisan tariff had removed the tariff from politics.

Mr. Gompers also assailed Mr. Hughes for having voted, while on the supreme court bench, to uphold the Danbury Hatters' decision, which robbed 160 aged members of the Hatters' union in Danbury of their homes and life savings. He ridiculed the attempt of the republican candidate to excuse his acquiescence in this decision.

Col. Roosevelt's criticism of President Wilson's Mexican policy also received attention from Mr. Gompers.

Col. Roosevelt said at Wilkes-Barre, Pa., that "In Mexico President Wilson played second fiddle to Mr. Gompers," said the labor leader. "Of course, there's no truth in it. I did my best to help the president to maintain peace with Mexico, when I met with representatives of the working people of that country."

Mr. Gompers cited many instances of Roosevelt's having called him in conference during the colonel's political career.

"Only a few months ago," added Mr. Gompers, "he asked me to talk at Oyster Bay because he wanted to talk over some matters with me. I wonder whether he thought he was playing second fiddle to me. I was repeatedly asked by the colonel and by George W. Perkins to advise with him this summer and received from Perkins a speech the colonel wished to read before it was delivered."

After charging that if Mr. Hughes had had the courage to attack the Adamson eight-hour law while it was in congress he could have forced his party associates to defeat it, Mr. Gompers charged that every thought expressed by the republican nominee in the campaign was a "small after thought."

He said men of labor were forced to choose between Wilson, the friend of all the people, and Hughes, the choice of Wall Street.

He said that while he did not possess the power to deliver a vote that he would personally vote for the re-election of President Wilson and "regarded it as a duty for every liberty loving citizen" to do likewise. He maintained that the attitude of Hughes and Roosevelt toward the foreign affairs of the United States forced a conclusion that they would adopt a policy if put to power that would lead to war.

STRIKE FOR PEACE, PROSPERITY AND PROGRESS

HUMANITY--AND YOUR VOTE

By HENRY FORD

IN THIS GREAT CRISIS of our country I am more interested in measures than in men; I am not interested in parties at all. But measures can only be put into force through the men in office. We must therefore make a choice of the man and men who will put the measures in force.

In the first place we should guard against Wall Street influences again securing the control of our government. They have been rooted out during the last four years, and they are working hard to get back.

The eight hour day should be extended to all our industries where possible. Women should be given rights which in justice belong to them. For years the argument has had some force with me that women should be discouraged from working in factories and stores, and hence, they have been discriminated against in wages, but I have slowly come to the settled conviction that this practice has been unfair, because equal work deserves equal pay. Hence, all women in our employment who do equal work shall receive equal pay.

I regard war as the greatest curse of mankind—that it has done more to retard the progress of the race and its material well-being than any other single cause. We want to see war abolished and we believe it can be done, and we must try to choose the man for the head of our Nation who will do the most for these ends.

ALTHOUGH NOMINALLY A REPUBLICAN ALL MY LIFE, I AM FOR WILSON, AND URGE MY FELLOW CITIZENS TO STAND FOR HIM, BECAUSE OF HIS POSITION ON THESE AND OTHER GREAT QUESTIONS, BECAUSE HE HAS KEPT US OUT OF WAR AND HAS DONE MUCH TO BRING ABOUT THE REMARKABLE PROSPERITY WHICH WE ENJOY, AND BECAUSE WALL STREET IS AGAINST HIM.

He is entitled to be rewarded for his great service to mankind, and the only way we can reward him is by giving him the opportunity to be of still greater service.

The greatest reward for doing a good thing is the privilege to do more, that is why Mr. Wilson wants to be re-elected; in other words, to be paid for what he has done by the privilege of doing more.

I have much admiration for Mr. Hughes personally, but he is surrounded, influenced and advised by nearly all the evil influences of selfishness and greed which I feel have retarded our progress for so long. I fear his election would restore the old crowd to power and put back the cause of humanity for fifty years.

In my mind, the most undesirable citizen in the world is the man who will buy another man's vote, and the next most undesirable is the man who will sell his vote—because he not only injures himself and his family, but the community at large.

I AM FOR MR. WILSON BECAUSE WITH A WORLD AT WAR HE HAS KEPT US OUT OF WAR. ALL OTHER GREAT NATIONS ARE BEING CONSUMED AND DESTROYED, BUT WE HAVE PEACE WITH HONOR, AND OUR BOYS ARE AT HOME. SPECIAL INTERESTS ARE DEMANDING WAR AND THE PRESIDENT IS BEING CRITICIZED WITH MANY WORDS, BUT STRIPPED OF ALL UNNECESSARY WORDS, THEIR REAL COMPLAINT IS THAT HE HAS NOT PLUNGED THE COUNTRY INTO WAR FOR THEIR PROFIT.

There has been much talk of the attitude of the so-called "hyphenates." To my mind these are merely sentimental Americans, men and women, who, like myself, have a feeling of love for the place of their birth. My observation has shown that among the best of Americans are these citizens.

To all these let me say: I know from many conversations with Mr. Wilson, his absolute neutrality among all the nations at war, his intense devotion to peace, his deep desire to serve all the people of all those countries impartially. Any single act apparently against any one of these countries, is made only in pursuance of his duty as President of the United States and his duty to mankind.

I know positively he bears no ill will to Germany or to England, or France, or Austria, or any of those countries at war, but he does understand and is opposing that invisible government, that unseen hand which caused this war. I believe those same selfish forces that caused the war are opposing the President's re-election.

I AM FOR WILSON because he caused to be passed a large number of wise and humane laws, most of which had been promised by the politicians of both parties for many years without fulfillment.

No one class has been favored, no one disregarded. He has served the United States as a whole.

Among these laws are:

THE FEDERAL RESERVE LAW, which wrested from Wall Street its monopoly of finance, released credit, forbade usury and dispelled the fear of money panics which hung over every business. It has done away with the concentration of money in the hands of a few men in Wall street, and distributed it among twelve Government controlled reserve banks throughout the country. The passage of this law alone, from the viewpoint of the honest business man, should entitle Woodrow Wilson to re-election.

THE EIGHT-HOUR LAWS—The eight-eight day issue has suddenly sprung into great prominence.

I AM FOR WILSON because he favors the eight-hour day. The President has declared that he is in favor of the eight-hour day in all kinds of business, except a very few in which it is impracticable, as for instance, farming.

The President has been criticized for the passage of the Adamson eight-hour law, which applies to railroads, but that law averted the wholesale ruin which a universal railway strike would have brought. A strike had been ordered. It meant the closing of factories, violence and the enforced idleness of millions of persons and the loss of millions of dollars. Neither side to the struggle took into consideration the one hundred million people who would have to bear the burden. Every business man in the country was trembling with fear. The President acted as the representative of all the people and the strike was prevented and the principle of an eight-hour day endorsed. Seventy-four Republican Congressmen voted for the bill and no word of protest came from the Republican candidate, although the law was under consideration for several days.

Mr. Wilson showed great wisdom and courage in preventing this strike, which would have paralyzed the nation.

The Commission which has been appointed to study the effect of this law will, I hope, report that with increased efficiency the railroads will not need higher rates. But in any case this action is, I believe and hope, the first step towards the government ownership and operation of railroads.

THE RURAL CREDITS LAW, under which the farmer is enabled to borrow long time loans on small payments, at low rates of interest; and it promises an annual saving of \$150,000,000 to farmers, who were formerly the hopeless victims of loan sharks. These rural credit banks are now being established by the Commission in various parts of the country.

THE CHILD LABOR LAW, which prevents employment of young children in factories and stops the coining of dividends out of the lives of little children. There is no factory and no institution that can possibly give any care equal to a mother's care.

A WISE WORKMEN'S COMPENSATION LAW, providing compensation to those injured while in the service of the government, which measure will lead to "safety first".

THE LAW CREATING THE NON-PARTISAN TARIFF COMMISSION, which will go into effect very soon, and which has taken the tariff out of politics and placed it in their hands of a commission of different parties, so that tariffs can be altered as conditions change.

THE GOOD ROADS LAW, which provides \$75,000,000 for improving highways throughout the United States under adequate safeguards, which will facilitate transportation. This will help the country feed the city.

The farmer will be greatly benefitted by not being compelled to waste his energies on bad roads. Fruits and vegetables today are rotting on the farms from lack of good roads.

THE INCOME TAX LAW AND THE INHERITANCE TAX LAW, which readjust the burdens of taxation, compelling the wealthy to bear a fair share of the load which has hitherto rested all too heavily on the backs of the poor.

THE AGRICULTURAL EXTENSION LAW, which provides an annual appropriation for the direct education of the farmer, in order that the farms of the land may be worked with greater efficiency and upon a sound and scientific basis and produce larger crops for the benefit of all our people.

THE ALASKAN RAILWAY LAW, which provided a railroad built and operated by the government, and which has opened up the resources of that great territory in the interests of the PEOPLE, not for the benefit of the few.

THE FEDERAL TRADE COMMISSION LAW, which creates a non-partisan board to arbitrate commercial disputes, to prevent unfair competition and to stand as a barrier between the consumer and extortion.

THE GRAIN ANTI-GAMBLING LAW, which provides better grain storage, facilities, and enables the farmer to obtain certificates on which loans may be secured. He is thus enabled to borrow on the products of his labor—and is not compelled to sell during unfavorable times.

THE SAFETY-AT-SEA LAW, through the passage of which ships now carry more life-saving equipment, and the general living conditions of sailors at sea have been improved.

THE COTTON FUTURES LAW, which prevents gambling in cotton in stock exchanges and establishes standards for cotton. I hope the President will find some way to pass a law to prevent all speculation in stocks.

THE CLAYTON ANTI-TRUST LAW, which does away with interlocking directorates, prevents railway looting, ends the abuse of the injunction, and declares the great truth that a "Man's labor is not a commodity but a part of his life".

THE ABOVE RECORD OF PROGRESSIVE LEGISLATION in the interest of all the people and not of the few, far exceeds any ever before known in our history.

THOMAS A. EDISON SAYS THAT PRESIDENT WILSON AND HIS COLLEAGUES IN CONGRESS, BOTH DEMOCRATS AND REPUBLICANS HAVE ENACTED MORE LAWS FOR THE BENEFIT OF THE INDUSTRIAL PEOPLE IN THE PAST THREE YEARS THAN THE REPUBLICAN PARTY HAS IN ALL THE TIME IT WAS IN POWER; and it is because of these laws and his leadership in the interest of all the people that the President is being fought by the special interests, by every master of Wall Street, every monopolist, every munition maker, every man with a special interest to serve. No business man should oppose Wilson because Wilson is the greatest friend honest business ever had in the White House.

GREAT PROSPERITY COVERS THE LAND AS NEVER BEFORE. LEGITIMATE ENTERPRISE IS ASSURED A PROPER REWARD. THERE ARE NO BREAD LINES, AN EVERYBODY IS EMPLOYED THAT WANTS TO BE. OUR PEOPLE ARE CONTENTED, PROSPEROUS AND HAPPY. WHY SHOULD WE MAKE A CHANGE?

In order to carry out his work President Wilson will need the co-operation of a Congress thoroughly in accord with his own far-seeing policy. It is our plain duty as voters to send back to Congress the right men, irrespective of party, to assist the President in the great tasks that face him.

PICTURE GALLERIES

THOSE WHO live in towns should carefully remember this, for their own sakes, their wives' sakes, for their children's sakes. Never lose an opportunity of seeing anything beautiful.

Therefore I said that picture galleries should be the townsman's paradise of refreshment. Of course if he can get the real air, the real trees, even for an hour, let him take it. But how many a man who can not spare time for a daily country walk, may well slip into the National Gallery in Trafalgar Square (or the South Kensington Museum) or any other collection of pictures, for ten minutes. That garden, at least, flowers as gaily in the winter as in summer. There in a space of a single room, the townsman may take his country walk—a walk beneath mountain peaks, blushing sunsets, with broad woodlands spreading out below it; a walk through green meadows, under cool mellow shades and watches till he seems to hear the foam whisper, and to see the fishes leap; and his heart wanders out free, beyond the grim city-world of stone and iron, smoky chimneys, and of roaring wheels, into the world of beautiful things.—Charles Kingsley.

I will not ring for priest or king.
One blast that, in re-echoing,

A broken reed, the wind indeed
Left flat upon a dismal shore—
Yet if a little maid, or child,
Should sigh within it, earnest-mild,
This reed will answer evermore."

Go tell the fishers as they spread
Then nets along the water's edge,

Miss Eloise Patterson of Jelka, Ark., is the house guest of Mr. and Mrs. D. E. Baxter, of North College street.

Mrs. A. Reed Humphreys and daughter Madeline, of Delphos, were the guests of relatives over the week end.

Mrs. J. C. Linneman will entertain the members of the Lotus club at her home this afternoon. "Mexico" will be the topic for the afternoon's discussion, Mrs. Linneman giving a talk on "Mexico As I Saw It." The Policy of the American War, will be the subject of a paper read by Mrs. I. S. Motter. A history of Mexico will be given by Mrs. J. D. Bailey.

Members of the Girls' Embroidery club will be entertained Saturday afternoon at the home of Mrs. Marie Robinson Spraul at her home near Waynesfield.

Members of the Nurses' Alumnae association will meet this evening at the hospital.

Mr. and Mrs. Owen Frances will entertain the members of the University club at their home Wednesday evening. Dinner will precede the program. Roll call will be answered with "My Ancestry." The Rev. Warren Dunham and Mr. A. D. Hildreth will discuss "The Reconstruction Period of Lima." Mrs. M. B. Fuller, Mrs. Edna Frances and Mrs. H. C. Bennett will act as assistant hostesses.

A delightful reception was held last night at the home of Mr. and Mrs. William Sellers of Perry township in honor of their daughter, who recently became the bride of Mr. Samuel Lowery. About 130 were present to enjoy the evening. Many beautiful gifts were presented to the young couple. The evening was spent with games, music and at the close a delicious supper was served.

Wednesday evening Mr. and Mrs. William Dobbins entertained the

members of the C. and C. club and their husbands at their home with dinner, which was followed by an evening at cards. Red roses were used as table decorations. Among those present were Mr. and Mrs. William Boyzell, Mr. and Mrs. M. L. Allan, Mr. and Mrs. William Toornman, Mr. and Mrs. L. Deikman, Mr. and Mrs. Charles Brown, Mr. and Mrs. James Nichols, Mr. and Mrs. Charles Young, Mr. and Mrs. George Enslin, Mr. and Mrs. M. L. Maize. Guests of the club were Mr. and Mrs. Harry MacClintock of Roushous, Ill., Mr. and Mrs. Bert Steiner and Mr. and Mrs. E. E. Clem.

Enthusiasm was prominent at the meeting Saturday afternoon of the City Federation held at the Business Women's club. Mrs. Robert Morris of Toledo gave a lecture of unusual excellence, which was greatly appreciated by her audience.

After the symposium of the Dayton lecture given by several of the women who attended, Mrs. Kent W. Hughes, city defederation president, made several announcements concerning the suffrage convention.

Important among them was that any women wishing to entertain any of the visiting ladies, who are particular friends or relatives should get in touch immediately with the hospitality committee, which includes Mrs. George Kerr, Mrs. Kent W. Hughes, Mrs. O. B. Selfridge, Mrs. B. H. Simpson, Mrs. E. B. Ogilvie, Mrs. A. Pflum, Mrs. F. W. Holmes, Mrs. James Halfhill, Mrs. N. L. Michael, Mrs. William Wilson, Mrs. Guy Bailey, Mrs. Walter Montgomery, Mrs. W. L. Neville, Miss Eda Ballard and Mrs. G. W. Simpson. The luncheon should be made.

All arrangements for the luncheon should be made before November 15. The following committee is in charge: Mrs. B. A. Gramm, chairman, Mrs. Scott McGinnis, Mrs. F. G. Borges, Mrs. Glenn Wallace, Mrs. Beecher Moke and Mrs. Charles Black.

Members of the Missionary society of the First Baptist church will meet Wednesday afternoon at the church. The meeting will be opened with an address by the Rev. Mr. Stiles on "Two Heads are Better Than One," from the World Missionary and World Peace series.

Mrs. Robb Melly will give a talk on Hymnology. A piano solo and the Bible study of the book of Ephesians will complete the program. All members of the church and their friends are invited to attend.

Fur coats are to be a feature of the display this season. Most of those shown are extremely smart. Particularly noticeable is the "nipped" waistline, this accentuating the fullness of the hem. Here a coat of moleskin is generously bordered with skunk fur and lined with rich soiree silk. High button boots and a dashing ribbon turban complete the outfit.

Willard Gramm who is attending school at Case School of Applied Sciences at Cleveland, has returned after having spent the week-end with his parents, Mr. and Mrs. B. A. Gramm.

Miss Dorothy Collins has returned to Cincinnati after spending the week-end with her mother, Mrs. E. B. Mitchell, of South Cole street. Miss Collins is studying at the Conservatory of Music.

Ladies' Aid society of the Second Street M. E. church will serve dinner and supper at the church basement tomorrow.

Mrs. Julia Simpson will review Longfellow's "Masque of Pandora" this afternoon at the meeting of the Bay View club which will be held at the home of Mrs. C. W. Heister. Mrs.

Mrs. Wynne Tells How Lydia E. Pinkham's Vegetable Compound Helped Her During Change of Life.

Richmond, Va.—"After taking seven bottles of Lydia E. Pinkham's Vegetable Compound I feel like a new woman. I always had a headache during the Change of Life and was also troubled with other bad feelings common at that time—dizzy spells, nervous feelings and heat flashes. Now I am in better health than I ever was and recommend your remedies to all my friends."—Mrs. LENA WYNN, 2512 E. O Street, Richmond, Va.

While Change of Life is a most critical period of a woman's existence, the annoying symptoms which accompany it may be controlled, and normal health restored by the timely use of Lydia E. Pinkham's Vegetable Compound.

Such warning symptoms are a sense of suffocation, hot flashes, headaches, backaches, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and inquietude, and dizziness.

For these abnormal conditions do not fail to take Lydia E. Pinkham's Vegetable Compound.

Miss Hazel Dickman of Erie avenue is spending several weeks with friends and relatives in Detroit.

Mrs. James Gallagher returned to her home in Wapakoneta, Friday, after spending several days as guest of friends in this city.

Favors of Fashion
By CLARICE.

Among new items shown in pendant garniture are small acorns of white silk with white bead cups or tops. These swing on a thread of white silk about an inch and a half long. Much newer than tassels, they supply the same effect and provide the added charm and zest of novelty.

Collars and cuffs of serge dresses

have been adopted to the season in that they are no longer of georgette crepe but of washable satin, palest pink or white or are of white broadcloth unlined and with a white edge. The quality of the latter is such that some shops are selling sets under the name of flannel. The filmy collar, with or without revers, is an adjunct to practically every blouse, one-piece dress, and street suit, and this year, more than usual, its crisp daintiness is in demand as a finishing touch to the costume.

While the simple flat collar with revers is the most used, there are many variations. There are also many stocks, gumpes, and jabots, and often combinations of all three. A gumpes made of plaited silk chiffon comes in pastel colorings, and is trimmed with tiny self or pearl buttons, with a few shaded rosebuds at the closing in front. Gumpes of finely tacked batiste have veils and tiny ruffles of Valenciennes lace.

Popularity is newly claimed for beaver hats as well as velvet and feather hats, that is, those made of all fashions, have a prominent place in favor. Ostrich feathers for dress millinery are to be noted in all colors.

Shedland shawls and Paisley

shawls are playing an important part in the latest modes, but not as shawls. The former are used by a London creator of fashion to overdress gowns recently put forth, and several are often used on one dress. It is claimed for these shawls that they provide a softness in effect, used in this way, that cannot be had from other materials chosen for draping gowns. At least, they are eminently wintry.

The woman of today will feel differently from the little boy who had a suit "made out of his grandmother's shawl," for the little boy did not feel at all in mode, while the present-day lady will, since Paisley shawls are used in a variety of outer wearing apparel. Large hats trimmed with pieces of the goods are much in vogue, and are as charming as small hats made entirely from the material. Wraps of Paisley, combined with other goods of solid tint, are practical, and can be used with muffs of the two goods combined, with neckpieces to match. Purse bags or the material are large and exceedingly stylish; some are embroidered in steel heads, and follow the pattern of the Paisley design; others are made up without extra ornament.

Why Not Try a Hoover Suction Sweeper?

The dirt in your carpets and rugs is of three kinds—the light surface dirt or dust, the clinging dirt, such as thread, hair, lint, etc., and the imbedded dirt of sand and grit that sifts down into the carpet and cuts the fabric.

The latter is the hardest to get out and defies the broom or the ordinary sweeper. The Hoover Suction Sweeper gets all the dirt, is easy to operate, does not wear the carpets out and gives lasting service. Comes in different sizes and are marked to sell at \$47.50 and \$57.50. See them demonstrated in our rug department.

THE FAUROT'S PICTURES.

"The Intrigue," the new Paramount picture at the Faurot found much favor with the patrons of that theatre yesterday. It tells a story of war-time intrigue, but it is not a war picture by any means. Lenore Ulrich, who has the role of a patriotic countess who disguises herself as an immigrant girl and comes to America in the secret service of her country, gives a telling performance. Her acting is of the highest calibre and just what one would expect of this very gifted woman. The supporting cast is thoroughly competent and the settings and photography up to the usual Paramount standard. "The Intrigue" is accompanied by a Bray cartoon, "O. U. Rooster," that is very funny, and new edition of the Pathe News. Last times tonight.

ORPHEUM.

One of the highest and best known Keith features in vaudeville will be offered at the Orpheum theatre the first three days of this week, the well known former heavyweight champion of the world, James J. Corbett, who will in monolog, depict in a humorous vein some of his past ring experiences. Mr. Corbett was headlined at Keith's Cincinnati theatre last week and jumps direct to Lima from Keith's St. Louis theatre, and should prove a magnet that will fill the theatre at every performance. In addition to Mr. Corbett, four other class vaudeville acts will be on the program. As an added attraction M. Thor, Inc., will present "The Devil's Revue," something new in musical comedy, plenty of good comedy, and a bevy of pretty singing and dancing girls. Lewis and Miles in an aerial novelty, Paul Pool "The Monologist Trickster," and a comedy playlet with Rose Mandson and J. L. Clark completes the program. Election returns will be read from the stage election night. Three performances 7:30, 9 and 10:15.

HELEN HOLMES AGAIN TODAY.

For the benefit of those who did not have the chance to see the starting of the great new serial film version of the Saturday Evening News story "The Lass of the Lumberland," at the Royal yesterday, this same picture will be shown at the Dreamland again today. Those who saw it yesterday realize that this will be even more thrilling than "The Girl and the Game," in which she won so much admiration by her daring, and all should see this first chapter in order to more thoroughly appreciate and understand this new serial thriller. This is the story of little Helen Holmes being born to a mother who doted on this little babe; while the father curses the wife because she did not bring a boy into the world. The first chapter deals with the avariciousness and cruelty of Dollar Holmes, and of the sweetness of Mrs. Holmes. Helen is shown attaining her womanhood in later years and the scenes are laid in the great north woods among giant oaks and dense shrubbery, of which we see but little nowadays. Two other reels complete the show.

CHARLIE CHAPLIN TODAY.

In order to accommodate those not being able to secure admission to the Royal and Dreamland Saturday

day and Sunday to see funny Charlie Chaplin in the new Mutual feature "One A. M.," arrangements have been made to run it for the last time at the Strand today. Those wishing to see him should not fail to do so today. The many surprises Charlie brings in this new one fill one with amazement at the ingenuity displayed by Chaplin in his introduction of the many new stunts. The room of stuffed animals, the revolving table, the Alpine costume, the clock with the big pendulum, the "old bed" and the shower bath all give Charlie an opportunity to keep one laughing from start to finish. Ask someone who saw it! Then you'll be sure to go! Other pictures will also be displayed.

ANOTHER BLUEBIRD TOMORROW.

At the Royal tomorrow will be shown another of the famous Bluebird fine arts films entitled "The Unattainable," and featuring Dorothy Davenport, Emory Johnson and an all star cast. This is the story of a woman who because of her intellectual ability and beauty, had so many suitors and had refused so many of them that she had been nicknamed "The Unattainable." One man, however, decided that he would give up the struggle and in the end he won. This story is replete with thrilling situations as well as shows society at its best. Beautifully gowned women and carefully groomed men, among beautiful settings give this a splendor not found in many photoplays. Besides this will be displayed funny Rube Miller and Dick Turpin in the screaming two reel Vogue comedy "Her Painted Pedigree." Election returns will be read at the three theaters on election night, so evidently all three theaters, the Royal, Dreamland and Strand, will be crowded these nights.

FLORENCE TURNER AT ROYAL.

Popular Florence Turner will make her reappearance at the Royal today in another of the Mutual masterpieces, "Grim Justice." As an untutored country girl, who in spite of a hard life with her stepmother, has developed an unselfish and lovable nature, she eventually wins out over all obstacles and marries the man of her choice. The feature is filled with many beautiful scenes and under the directing of Larry Trimble is full of human heart interest. This does not depend on sensationalism to secure patronage but is another of those sweet, pretty stories which make one feel better for having seen them. This five reel will be shown today at the old price of admission—five cents.

WELTY ACCLAIMED BY BIG CROWD AT LOCOMOTIVE PLANT

The Lima Locomotive works was the scene of the close of the democratic campaign in Allen county, with a crowd of nearly 1000 workmen at the north gate at noon today. Except for the fact that several of the departments had declared a holiday this morning, to permit repairs, the entire plant was represented, and the crowd was openly sympathetic to the democratic cause.

A number of the democratic county candidates were on deck, but the only address was made by Congressional Nominee Ben Welty. His theme was the foreign policy of the Wilson administration and the economic results which will follow the cessation of hostilities in Europe.

Posters were distributed at every gate this morning as the men went to work, and the Lake Erie shops were included in the rally. An electrical piano, mounted in an automobile, aided in drawing the crowd.

Members of the county ticket and executive committeemen announced that they were well satisfied with the meeting, which was almost impromptu. Two weeks ago former Secretary of the Interior James Rudolph Garfield, with a national reputation as a speaker behind him, was unable to get a crowd.

MRS GILROY SAYS HARSH THINGS OF GUY J., HER HUBBY

Alleging that instead of lavishing his affections and money upon her, Guy J. Gilroy, foreman at the Gramm-Bernstein company's shops, entertains women at picture shows, takes them to operas and gives them expensive suppers at cafes, petition for divorce was instituted this morning by Mrs. Edna M. Gilroy of 722 Holmes avenue.

She says that on Saturday night he met a woman on the street, took her to the show and afterward to supper despite the protests of the wife and her reasoning with him to devote his attention to his family. Mrs. Gilroy says they have two children, Pauline, two years old, and Mildred, eight months of age. She says he earns from \$20 to \$25 a week. She asks for alimony and attorney fees with which to prosecute the suit, as well as the care and custody of the children.

MRS. SCHULZ DIES.

Mrs. Anna Louisa Schulz, 51 years old, died at her home at 608 North Jefferson street yesterday, after an illness of a year from a complication of diseases. She was the daughter of Mr. and Mrs. George Keller and was born March 9, 1865, in Baden, Germany.

The husband, Thomas Schulz, a daughter, Callie, at home, three sons, Walter, at home, Thomas and Louis of Lima and two sisters, Mary Schulz of Lima, and Callie Keller, who resides in Germany, are left.

Funeral services will be held on Tuesday afternoon at two o'clock at the German Reformed church, conducted by the Rev. T. W. Hoernemann, pastor. Burial will be at Woodlawn.

LAKE ERIE MAKES SCHEDULE CHANGE

Changes in the schedule of trains on the L. E. and W. railroad effective November 12 is announced by officials of the road. The necessity of better connections at junction points is given as the reason for the new schedule.

The east-bound train for Sandusky and intermediate points will in the future leave Lima at 2:50 p. m. This train is daily except Sunday. West-bound trains for Peoria and Rankin will depart from Lima at 7 a. m. and 11:20 a. m., respectively. The latter train is daily except Sunday.

WILLIAMS TELLS ROTARIANS ABOUT MEXICAN TOUR

Members of the Lima Rotary club enjoyed an informal session at the noon-day luncheon today, the capacity of the Lima House dining room being taxed. Rotarian S. M. Williams, who just returned from a four months business trip to Mexico and the west, gave a brief report of his trip, including a favorable report on the rests of Garford trucks in the government work. Mr. Williams stated that the tests prove conclusively that the motor truck has come to stay in the army equipment.

Guests at the meeting were R. C. Newin and Alex Brady, of New York.

THE IDLER

Clarence Johnson, of 916 Dingleline avenue, is a patient at the city hospital as the result of the load of a shotgun he was carrying striking him in the heel.

Dr. R. A. Buchanan, of West Market street, will arrive in Lima today on a leave of absence from the Second Regiment, which is stationed on the Mexican border.

Nelson T. Doolittle, of South West street, for the past 19 years agent for the Adams Express company in this city, has resigned. His place will be taken by Henry Miller, formerly depot agent.

Miss Florence Schnell, a student at Carnegie School of Technology, received first prize in the designing school.

Allen Jackson, negro, arrested Saturday night on a charge of drunkenness, received a hearing in police court this morning and was fined \$5 and cost.

Hermann Herman, fireman at the Solar Refinery, 22 years old, and born in Switzerland, has filed his declaration in court to become a citizen of the United States. He resides at 755 Oak street.

CHARLIE CHAPLIN TODAY! Last day in "One A. M. A. scream."

IMPORTANT WORK TO BE DISCUSSED

It is likely that the few minor points between L. E. and W. railroad officials and members of the council will be disposed of tonight at the regular meeting of the council, so that the railroad will be able to begin work on their contemplated improvements in the near future. The improvement will probably cost the railroad a half-million dollars.

Another matter of importance which will probably be taken up by the body will be a proposal by the board of control that \$2,000 be appropriated for the purpose of erecting the fire station at the corner of Lafayette and Main streets. Bids of contractors on plans submitted by architects for the construction of the building were all rejected some time ago as they were not inside the estimate of the architects.

Two Lima Men Die In Crash on L. E. & W.

(Continued from page one.)

206 Water street was born in Lima on February 2, 1895. When he left home on Friday he is said to have remarked to his mother, in bidding her goodbye, "Well, mother, I expect some time they will bring me home all cut up or may be killed."

There was a sad, pathetic silence fell over the audience of the Central Church of Christ yesterday morning, when Sheely's pastor, the Rev. A. B. Houze, held up the envelope in which Sheely had made his weekly donation to the church. His body at that time lay cold in death at Fremont.

The body was accompanied to Lima and removed to the stricken home. Besides the parents, there are three sisters and three brothers living. They are: Fred R. Sheely, of Holmes avenue; Paul and Beryl, at home; Miss Ester Sheely, also at home, and Mrs. Jennie Garretson and Mrs. L. E. Waggoner, of Sandusky, the latter two of whom are sisters.

Funeral services will be held Tuesday afternoon at 2 o'clock at the Sheely residence. The Rev. A. B. Houze will conduct the services. Burial will be at Woodlawn.

The body of Philip Wilhelm, 20 years old, son of Mr. and Mrs. Daniel Wilhelm, of 666 North West street, who was killed in the collision at Fremont yesterday, was accompanied to Lima last night by Undertaker E. J. O'Connell and removed to the home of the parents. Funeral services will be held at St. Rose Catholic church at 8:30 o'clock Tuesday.

SEES LITTLE BOY KILLED.

COLUMBUS, Nov. 6.—Myer Rosen, four-year-old son of Mr. and Mrs. Samuel Rosen, was instantly killed when he started to run across the street near his home and was struck by an automobile driven by J. Roy Welner. A mechanical respirator was used for three hours in an effort to save the boy's life. Welner reported the accident to the police, but it is understood it was unavoidable. The boy's father saw him killed.

PLANT EXTENSION. MARION, O., Nov. 6.—George F. Davis, vice president and general manager of the Interstate Iron and Steel company, en route from the south to his Chicago offices, stopped off here to visit his son, who is employed in the big local plant of the company, and while here announced that a \$3,500,000 deal for the purchase of an open-hearth furnace plant and a wire plant is now being closed by the Interstate corporation.

This, he said, will mean the enlargement of the Marion plant, which now has a weekly payroll of \$8,000.

Unequaled Prosperity of Northern Farmers Under Wilson Administration

By DAVID F. HOUSTON, Secretary of Agriculture.

The wealth of the farmers of this country has increased so enormously during the three and one-half years of the Wilson administration as to break all previous records. The total value of the farm products of this country for the last three years of the Taft administration was \$37,199,000,000, whereas the total value of the farm products for the first three years of the Wilson administration was \$30,800,000,000, against three billion dollars, and this in spite of the fact that the total value of farm products was cut down by the decrease of over \$100,000,000 in the value of our cotton crop in both 1914 and 1915.

It is only by reference to our export totals as compiled by the department of commerce that one can form any adequate conception of the magnitude of the gains that have been scored by our northern farmers during the years just passed. With our wheat export worth nearly eight times as much as those of 1912 and with values of other staple exports running in many cases hundreds of per cent higher than those of four years ago, it is clear that our present rural prosperity is unprecedented in the annals of American agriculture.

The following comparative figures, showing (in dollars) various export totals for the fiscal years 1915 and 1912 will serve to indicate the magnitude of the items that go to swell the grand total which the farmers of this country will put into their pockets this year:

Wheat, \$215,500,000, as against \$28,470,000 in 1912 (a gain of near-

ly 800 per cent).

Wheat flour, \$87,340,000, as against \$30,999,000 in 1912.

Barley, bran, middlings, bread, \$20,000,000, as against \$2,000,000 in 1912.

Total breadstuffs, \$435,690,000, as against \$123,970,000 in 1912 (a gain of \$322,000,000, or over 300 per cent).

Bacon, \$78,600,000, as against \$24,900,000 in 1912.

Fresh beef, \$28,889,000 as against \$1,370,000 in 1912 (a gain of 1,800 per cent).

Canned beef, \$9,350,000, as against \$1,800,000 in 1912.

Lams and shoulders, \$40,200,000, as against \$24,000,000 in 1912.

Hutter, \$2,500,000 as against \$1,400,000 in 1912.

Cheese, \$7,430,000 as against \$1,400,000 (a gain of nearly 1,000 per cent).

Total meat and dairy products, \$297,000,000, as against \$156,260,000 in 1912.

Tobacco (unmanufactured), \$53,180,000, as against \$43,250,000 in 1912.

Fruits and nuts, \$36,900,000, as against \$30,900,000 in 1912.

Vegetables, \$15,900,000 as against \$6,544,000 in 1912.

Eggs, \$6,130,000 as against \$3,390,000 in 1912.

All this without entailing any hurtful drain upon our national resources. Take livestock, for example, of all farm enterprises the one most likely to suffer from excessive export trade. Today, in spite of the enormous increase in the total value of meat products shipped abroad, there are on our farms 39-

453,000 head of cattle other than milch cows, as against 27,200,000 head in 1912, and 63,017,000 head of hogs as against 65,217,000 in 1912.

One of the most interesting features in connection with the above figures is the fact that in spite of the low from the "bloody shirt" crowd, to the effect that the administration is sectional and southern in its sympathies and a traitor, the greater part of the current increases in agricultural returns comes from regions in the north and will go to the farmers of the north.

The cotton situation has done its best to justify up the cotton market by obtaining to reach \$100,000,000 to \$100,000,000, by persuading the cotton area to allow nearly two million bales of cotton to get into Germany, and by persuading the southern farmer to cut down his cotton acreage and to raise his acreage of oats, corn, hay, etc., several million acres. But while these measures resulted in raising the price of cotton from 12-12 to 12-12 and thus saved the southern farmer from ruin, they did not bring cotton in the list of crops the value of which has increased during the Wilson administration.

The same crowd that tried in vain to raise this issue of sectionalism will try to make out that the billion dollar gain scored by our farm products values in the past four years has no significance—that so far as the United States government is concerned it is in the last degree accidental, indeed almost reprehensible. All this great gain, we will be told, is not in any sense the achievement of the administration, but wholly the result of the European war. The sun and the rain, we will be eloquently reminded, grew the crops, and the chancelleries of Europe, not the Wilson administration, brought the situation that has boosted our export trade. But granting that the administration did not create the situation, it may successfully be main-

tained that it saved the situation.

When the great war broke and the country was threatened with an unprecedented financial disaster, it was the administration, not the chancelleries of Europe nor yet the points of Wall Street, that saved us from the worst of a panic. It was the administration that came to the rescue of our ocean-borne commerce with measures for government war insurance; the administration that has underwritten the rehabilitation of our merchant marine by the passage of the shipping bill. It was the administration that kept us from slipping into the vortex of war in those dark days of August, 1914, when the world was flushed and deluged with the fever of battle. It has been the administration that has maintained our neutrality inviolate throughout the two years that have elapsed since then. It was the administration that saved the situation.

While under the Wilson administration fewer special favors have been granted to special interests than under any preceding administration, more has been accomplished to promote and boost legitimate business, big and little, urban and rural, than was accomplished by any half-dozen preceding administrations.

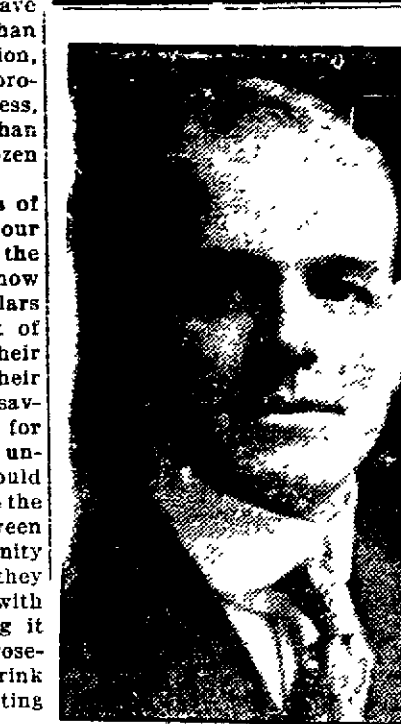

But for the painstaking efforts of the administration to maintain our neutrality and to keep clear the channels of commerce, where now would be that extra billion dollars that has just gone to the credit of the American farmer? With their surplus grain locked up in their granaries, and with both their savings and their sons in requisition for the prosecution of a wasteful and unnecessary war, our farmers would indeed have cause to ponder on the amazing difference in aspect between Opportunity seized and Opportunity wasted. As it is, however, they have their extra billion in hand, with no immediate danger of having it tax away from them for the prosecution of war, or of having it shrink in their hands under the blighting influence of financial disaster.

The European war created a situa-

tion that offered opportunity; the

Wilson administration seized the opportunity. There, in a nutshell, is the answer to the wall that our present prosperity is purely accidental. It would be just as pertinent to urge that the fact that we are not now at war with Germany or Mexico is purely accidental, when all the world knows that war has been avoided only by the most skillful, persistent and patient endeavor. When the European war came it was in the power of the administration to make the most of the ill wind and maintain neutrality in the hope of doing it. Upon a good turn when the time for reconstruction came, or to line the United States up in the trenches with the belligerents. Our present peace and comfort, our present prosperity, including the farmers' extra billion dollars, are due to the wise and resolute choice that

was made.

PUBLIC FORUM.

SHERIFF ELEY.

To Editor of The Times-Democrat:

I am informed that some voters of Allen county will not support Sheriff Eley because of his action on the night of August 30, when the mob assaulted him. Sheriff Eley did his duty faithfully in maintaining the dignity of the law. Had he done otherwise he would have violated his solemn oath. He has earned the support of the polls of all law-abiding citizens. No good American will refuse him his vote because of his action in the riot that night. There is no safety for any citizen outside the lines of the law. Good citizens of Allen county cannot afford to encourage anarchy.

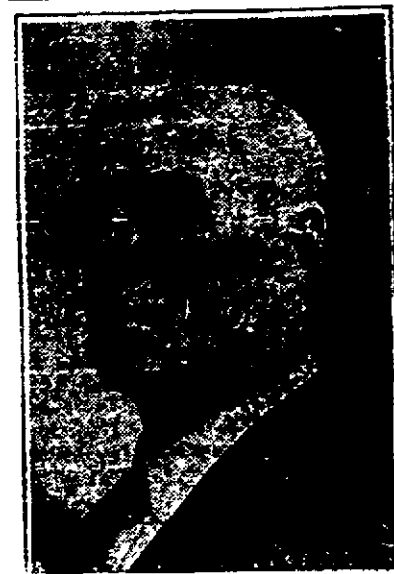

If the law is not adequate to fully punish crime the people have the

power to strengthen it. If officials charged with the duty of enforcing it fail so to do, let the people apply the remedy, but let us not make a mockery of the law. Let us not drift into anarchy.

Labor Leaders Endorse Hughes

One-third of all laws beneficial to labor, passed in New York in 133 years, were passed during Gov. Hughes' term at his request and signed by him.

INDIANA

STATE BUILDING TRADES COUNCIL

OFFICE OF FRED SAYLOR, PRESIDENT
324 W. STATE ST.
INDIANAPOLIS, INDIANA

October, 31st 1916

To Whom it may Concern:

I will work for and vote for the Republican Ticket because I confidently believe that the welfare of the Country demands the restoration of the Republican Party to control of Public affairs. No Wage earner should be deceived or confused by fake issues advanced by the Democrats. The overshadowing issue before the American Laborer to-day is the re-establishment of the protective Tariff system. Every thoughtful man knows that the present industrial activity in this Country is due entirely to War Orders from Europe and that when the Foreign War comes to an end we will be confronted with Democratic Free Trade, which never has failed to bring disaster to the American Wage-earner. The four years will prove a crucial period in our national life. This Government must be administered by competent and efficient men. If the interests of the Workmen and their families are to be safeguarded the Republican Ticket must win at the Polls next Tuesday.

OFFICE OF THE SECRETARY-TREASURER

From the standpoint of the American laborer, we are of the opinion that the most important issue is protection, for in no other way can the standards of living we now have be maintained. Every laboring man knows that before the European War commenced many workmen were out of employment in this country, and that there was every indication of an acute condition in the immediate future. The war has temporarily prevented this condition; but it will certainly recur as soon as the war is over unless some steps are taken to repeal the Democratic free trade law now on the statute books; for every Democratic tariff to the American wage-earner, and the present law from the point of protection is the least favorable to the maintenance of our national standards of any of the laws for which the Democratic Party is responsible.

No other party than the Republican can be depended upon to restore a suitable protective tariff system and we shall, therefore, work and vote for the Republican ticket, believing that we are doing the best thing possible to safeguard the interests with which we are charged.

CHICAGO LABOR FOR HUGHES.

Building Trades Council Says Pres-
ident Wilson Lacks Sympathy.

Special to The Washington Post.
Chicago, Oct. 21.—One branch of organized labor swung into line for Charles E. Hughes tonight when the Chicago Building Trades Council, of which Simon O'Donnell is president, adopted resolutions urging the defeat of President Wilson because of "lack of sympathy with the American workmen."

Arthur D. Burbank, chairman of the legislative board of railroad trainmen in Illinois, issued a statement declaring that railroad employees are turning from President Wilson.

"It is the first time our national officers have attempted to tell us how we must vote, and there are thousands like myself who will not stand for such dictation," said Mr. Burbank. "I am convinced that the sentiment among the railroad men for Hughes is growing stronger every day."

This is Labor's Answer to the Attempt To Deliver the American Workingman's Vote

THE labor vote cannot be delivered to the Democratic party. The bulk of it throughout the country will go to Hughes' was the positive declaration of Thomas J. Williams, one of the most prominent trade unionists in the United States, in course of an interview in Pittsburg on November 1, 1916.

Mr. Williams is National President of the Building Trades department of the American Federation of Labor, which includes every craft in any way identified with the building industry.

It has a membership of nearly one and a half million men, all mechanics, which is more than fifty per cent of the entire membership of the organization of which Samuel Gompers is the head.

Mr. Williams has just completed a tour of the south and middle west, in course of which he talked with representatives of every industry and addressed seven national conventions of labor organizations.

"No man or group of men can deliver the labor vote to the Democratic party," said Mr. Williams. "The American workingman always has supported the Republican ticket, and for a very practical reason."

"He knows that the Republican party stands for the great principle of protection to American industry, and that without such protection there can be no prosperity for him. The wage earners of this country today con-

sider the re-establishment of the protective tariff system the one great issue before them, and they will vote accordingly next Tuesday.

"No sensible laboring man is deceived by the present abnormal industrial activity in the United States. We all know that war orders from Europe are responsible for it.

"If the foreign conflict should end tomorrow, the wage earners of this country would be confronted with precisely similar conditions to those which confronted them during the first two years of the Wilson administration—idle mills, dead locomotives, men out of employment, and business depression everywhere.

"The workingman will vote next Tuesday for the Republican ticket because he will then vote for his own material welfare.

"In my trip through the south and west, I discussed the political situation with hundreds of laboring men. I found no indication anywhere of a pronounced trend of sentiment in the ranks of the wage-earners towards the Democratic party."

The Republican Protective Tariff protects workingmen's wages without increasing the cost of living. The question is, shall we have a Democratic tariff that only pretends to help the wage-earner or a Republican tariff that really protects him?

Northwestern And Ohio To Fight For The Big Title

CHICAGO, Nov. 6.—Old man dope was upset with a vengeance Saturday and as a result the championship race of the Big Nine today presents a wholly changed aspect. It looks now very much as if Northwestern and Ohio State would fight it out for the crown when they clash at Columbus on November 25.

Minnesota, doped to win over Illinois, and Wisconsin, picked to defeat Ohio, were handed unexpected beatings. Overconfidence undoubtedly beat Minnesota which had had things all its way in previous games and it is just as certain that Coach

Berry Becomes Gridiron Star After Workout

By Frank G. Menke.

Oh, those doctors are gleeful, As gleeful as can be. For now we're in the season that Enriches them, you see. They're busy mending busted bones, And patching human frame. Reassembling wreckage from "Those fearful football games."

Berry Redemption.

A year or so ago, Howard Berry, now the hero of Pennsy, was shoeed from the gridiron. It was hinted at the time that he was something of a quitter—that he had a bit of ochre in his system.

When the call to arms came last summer, Berry went to the Mexican border with the troops and got back only a few weeks ago. When he presented himself for football practice to Hob Folwell, he was in fine condition. And Bob at once jammed him into the Pennsy lineup in the game against Penn State.

"That guy'll lay down on you," the knocking element told Folwell. But the coach heeded them not. He gave Berry a chance, and his deeds of that day caused his praises to be chanted again and again throughout the land.

Almost alone and unaided he pounded Penn State into submission. He played with a fierceness and courage rarely—if ever—equalled on a football field. He crashed into the big Penn State line time and time again and ripped it to shreds. He circled the ends at will and made tackles that were death-defying.

In that game, Berry scored one touchdown and booted a brace of field goals. He was in every play—the star of every play—until battered almost to a coma he had to be carried from the field. And even then this youth, once branded as a "coward," fought to get back into the game.

Jess Willard will quit circling in a week or so. And then—so says Tomasco Jones—he will be ready to meet all comers, singly or in a body.

"The more the merrier," pipes Tomasco. "Jess is in good shape right now. Give him three weeks or so for strenuous training and he will be ready to take on anybody that is willing to get into the ring with him."

Five Teams To Fight For The Eastern Title

By Frank G. Menke.

NEW YORK, Nov. 6.—The battling for the eastern football championship has simmered down today to five elevens. The unbeaten teams, showing their accomplishments, follow:

Team	W.	L.	T.	Points
Yale	6	0	0	260-29
Princeton	6	0	0	125-3
Argy	6	0	0	184-24
Pittsburgh	5	0	0	174-19
Brown	5	0	1	194-3

Three of the five teams are to clash later in the season. The Yale-Brown match next Saturday will eliminate one of the two, in all likelihood, while the Yale-Princeton affair on the 18th may act as a knockout for the hopes of one or the other.

The results of Saturday's games were not surprising. The big elevens played to form. Pittsburgh, as was predicted, had an easy time with

Allegheny, while Princeton romped through to an overwhelming victory over Lehigh. Harvard's 51 to 0 triumph over Virginia showed that Haughton has developed a "punch" in the Crimson backfield—something that was lacking earlier in the season before Percy took charge.

The Yale-Colgate game long will last in the memories of those who witnessed it. It has been called the "greatest game played in the east in 1916." The score, 7 to 3 in Yale's favor, indicates the closeness of the battle.

The results of the service school games makes it look like a cinch for Army when it clashes with navy on November 25. The Army won a decisive victory over the heavy, and fast Notre Dame crew, while Navy went down to defeat at the hands of Washington and Lee which had been beaten earlier in the year by Army.

Out in Ohio there was a youngster who lost a leg some years ago and afterward took rank as one of the best basketball players in his vicinity.

Ernest Jones, once a star golfer in England, went to war and came

back minus a leg. So handicapped, he resumed golf and is playing the game with almost all the skill that he showed earlier. On the Pacific coast there's a youngster who lost a hand some years ago and then took up prize fighting. He is coming to

NEW YORK, Nov. 6.—Stocks were in brisk demand at the beginning of business on the stock exchange today, with wide openings recorded in several issues. Nearly everything traded in was established at a materially higher level. United States Steel common gained $\frac{1}{4}$ to 121 $\frac{1}{2}$, Union Pacific $\frac{1}{2}$ to 151 $\frac{1}{2}$ and Reading $\frac{1}{4}$ to 110.

A number of the specialties were in scant supply, with Columbia Gas the most prominent of this group, advancing $\frac{1}{4}$ points to a new high record of 47 $\frac{1}{2}$. Sloss Sheffield rose $\frac{1}{4}$ to 73 $\frac{1}{2}$ and gains of a point or more were made in Crucible Steel, Baldwin Locomotive and Republic Iron and Steel. There was aggressive buying of Central Leather, which advanced $\frac{1}{4}$ to 101, a new high mark.

Southern Railway common was the most active of the railway issues, advancing $\frac{1}{4}$ to 29 $\frac{1}{2}$. National Enameling was also prominent, crossing 33, a gain of over a point. Utah Copper advanced $\frac{1}{4}$ to 118.

Trading continued active in the late forenoon when net advances of $\frac{1}{4}$ to 1 over four points were recorded in a number of issues. Central Leather, sold at 102 $\frac{1}{2}$, again lifting its high mark. Utah Copper was also established at a new high record, when it sold at 114.

Steel common rose $\frac{1}{4}$ to 122, Republic Iron $\frac{1}{4}$ to 80, Colorado Fuel $\frac{1}{4}$ to 55 and gains of over 2 points were made in Crucible Steel and Baldwin Locomotive.

Reading became the most active of the railroad group in this period, selling at 110 $\frac{1}{2}$, a gain of 1 $\frac{1}{2}$ points.

Money loaning at 2 $\frac{1}{2}$ per cent.

LEGAL NOTICE.

Lima, Ohio, Oct. 16th, 1916.
SEALED PROPOSALS FOR SALE OF \$100,000.00 4 1/2% OTTAWA RIVER IMPROVEMENT BONDS.
Sealed proposals will be received at the office of the City Auditor of Lima, State of Ohio, until 12 o'clock noon, Monday, November 20th, 1916, for the purchase of a series of bonds to be known as "Ottawa River Improvement Bonds," in denomination of one thousand (\$1,000.00) dollars each, maturing as follows:
Two thousand (\$2,000.00) dollars, October 1st, 1917, and two thousand (\$2,000.00) dollars each annual period thereafter on the first of October of each year until paid and shall bear interest at the rate of four and one-half (4 1/2%) per cent per annum, payable semi-annually on the first day of April and October of each year until the payment of the principal sum and the several installments shall be evidenced by coupons attached to said bonds, and both principal and interest are made payable at the office of the Treasurer of the Sinking Fund of the City of Lima, State of Ohio.
All bids must be in the aggregate sum of one hundred thousand (\$100,000.00) dollars dated the first day of October, 1916, and will be sold to the highest and best bidder for not less than par and secured interest.
All bidders must state the number of bonds bid for and the gross amount they will pay for same, including premium and accrued interest to date of delivery.
All bids must be accompanied with a certified check on a solvent bank payable to the Treasurer of the City of Lima, Ohio, in amount of two thousand (\$2,000.00) dollars, upon the condition that if the bid is accepted, the bidder will pay such bonds as may be issued as above set forth, within fifteen (15) days from the time of the award; said check to be retained by the City of Lima, Ohio, if this condition is not fulfilled.
The City of Lima reserves the right to reject any and all bids.
By order of the Council of Lima, State of Ohio.
DAVID L. RUPERT,
City Auditor, Lima, Ohio.

Help for Bronchial
Trouble and Cough

"Toley's Honey and Tar Compound" is more like a food than a medicine. Mr. Will G. Richmond, Inglewood, Cal., writes: "Toley's Honey and Tar Compound" is more like a food than a medicine. It has greatly benefited me for bronchial trouble and cough. It acts so well in harmony with nature that it is more like a food than a medicine. It is a wonderfully quick way of soothing and healing the raw tickling surfaces of the throat and bronchial tubes. It eases the tightness over the chest, raises the phlegm easily, and keeps the stubborn racking cough that is so exhausting and weakens. It is the best medicine you can buy, and better than anything you can make. For coughs, colds, croup, whooping cough, influenza, throat and chest troubles, it is the best. It contains no opiates, and is acceptable to the most sensitive stomach. 22c Every box is a treat."

FINDS FRANKLIN ESSAY ON DREAMS IN CENSUS PAPERS

Director of Bureau Discovers It in Newspaper of 1800.

Growth of United States is Shown in Reports 100 Years Old.

WASHINGTON, Nov. 6.—Director Samuel L. Rogers of the United States census bureau has been rearranging old documents.

The enumerator of the census for a country in N. C., in 1800 used a portfolio for his reports made of a wavy linen flax cloth, which, after a repose of more than a hundred years, is firm and strong. This cover was carefully lined with a copy of the Medford Gazette, of December 25, 1800, which, though yellow with age, is in a fine state of preservation.

The government employees were interested in the contents of the antiquated newspaper. They compared it with the great papers of today. The leading story in the Gazette is one written by Benjamin Franklin entitled "The Art of Procuring Pleasant Dreams," and inscribed to Miss . . . The entire front page is taken up by the Franklin article. The old-style "s" used is rather trying.

"Methusalem, who, being the longest liver," wrote Dr. Franklin, "may be supposed to have left preserved his health had he slept always in open air, for when he had lived five hundred years an angel, said to him: 'Arise, Methusalem, and build thee a house, for thou shalt live yet five hundred years longer.' But Methusalem answered and said: 'If I am to live but five hundred years longer, it is not worth while to build me an house; I will sleep in the air as I have been used to do.'"

"Physicians after having for ages contended that the sick should not be indulged with fresh air, have at length discovered that it may do them good. It is therefore to be hoped that in time they may discover likewise that it is not harmful to those who are in health."

The article closes with the assertion that in order to be blessed by pleasant dreams, "what is necessary above all things is Good Conscience."

The census records reveal the great progress made in the United States in a few generations.

The nature and extent of some of the changes that have taken place in the United States during the last century are brought out in a striking manner by a comparison of the census reports of 100 years ago with those of recent years. The first census of manufacturing industries ever taken in the United States or any other country was made in 1810, and the latest American census of such industries was that of 1915; each covered the operations of manufacturing establishments during the preceding year.

For 1809 the total value of manufactured products reported for the entire country was \$128,000,000; but the data were known to be far from complete. The compiler estimated the true value at approximately \$173,000,000. A century later the manufacturers of the country turned out products worth \$20,-

672,000,000—about 120 times the estimate for 1809, and five years afterward, in 1914, the value of the output had reached \$24,246,000,000, or approximately 140 times the 1809 total.

The manufactures of 1809 were carried on largely in homes and in small shops on farms and plantations. This was especially true of the textile industries. According to the 1809 report, about 16,600,000 yards of cotton goods, 21,200,000 yards of flaxen cloths and 9,500,000 yards of woolen cloth were of home manufacture; and 22,100,000 yards of "blended and unnamed cloths and stuffs," mostly of home manufacture, are also shown.

The report is far from complete in respect to the output of cotton and woolen manufacturing establishments, only 147,000 yards being shown for the former and 71,000 yards for the latter. The total value of "all kinds of cloths and stuffs" is given at \$48,800,000. In 1914 practically all the textile goods made were produced in factories, and their value amounted to \$1,686,000,000.

During the hundred years in which the value of products manufactured multiplied by 120, the population of the country increased from about seven and a quarter millions to nearly ninety-two millions.

A comparison of the earlier censuses with the latter throws some light on the extent to which the relations between the federal government and the people have become closer with the growth of the country. In 1790, when the first census was taken, Uncle Sam was concerned chiefly in ascertaining, first, the total population of each state and of its counties and towns, in order that its representation in congress might be apportioned accordingly, as provided by the constitution; and, secondly, the potential military strength of the states and of the country as a whole.

With these ends in view, census takers were directed to return the names of heads of families and the number of free white males 16 years of age and over, free white males, all other free persons, and slaves. In 1800 the inquiry was made in more detail in regard to age, but in other respects its scope remained the same.

In 1810 the first census of manufactures was taken. In 1820 the population inquiry was amplified to show the number of unnaturalized foreigners in the country. In 1840 school attendance and illiteracy were included in the population census, and the first census of agriculture was taken. And thereafter from decade to decade the field covered by the decennial census was enlarged.

Until in 1910 the population schedule carried 30 inquiries, the general agriculture schedule, 59 inquiries, the subdivisions of which numbered 660, and the general schedules used for manufactures and for mines and quarries, 50 inquiries each.

In addition numerous special schedules were used for various lines of manufacturing and mining industries, and in some cases for farms also. Furthermore, the census bureau is now in operation continuously and carries on numerous other lines of work during the years intervening between decennial censuses. For Uncle Sam now wants to know, not merely how many citizens he has, but also what manner of people they are and what they are doing.

And this increase in the scope of the census work is paralleled by the increases in many other lines of governmental activity. Not all these increases represent extension of federal control or supervision over matters which in the earlier period were under the jurisdiction of the state or local governments; in some cases, as for example, the census work, they represent merely collecting information for the public benefit. In others, such as the work of the interstate commerce commission, they represent entirely new lines of activity in fields which always belonged to the federal government.

SIX KILLED WHEN I.W.W. AND POSSE MEET IN BATTLE

SEATTLE, Wash., Nov. 6.—Everett, Washington, is reported quiet today following yesterday's battle between 250 Industrial Workers of the World and a posse of deputy sheriffs and citizens in which at least six were killed and 40 wounded. Meanwhile companies of infantry and artillery of the national guard and naval militia are held under arms here pending orders to go to Everett to police the city, if necessary. Word from Adjutant General Thompson, who is investigating at Everett, is that they probably will not be needed.

The Industrial Workers returning here on the steamer Verona, bringing four dead and a number of wounded, are under arrest. They declare they were unarmed and fired none of the hundreds of shots which followed their attempt to land in Everett with the avowed intention of taking part in labor troubles there. They also say that several of their number fell overboard during the battle and were drowned.

The dead include Lieutenant C. O. Curtis, of the national guard, who was in Everett on recruiting service. Among the wounded are Sheriff Donald McKee and five University of Washington students.

The trouble at Everett is the outgrowth of shingle reavers there. After several minor disturbances Sheriff McKee organized a citizens' committee and expelled the I. W. W.'s. On several occasions small parties have attempted to re-enter the city, but have been turned back by the committee. Last Monday 45 I. W. W. members went to Everett on a steamer from here. There they were promptly arrested, taken in automobiles to the edge of the city and liberated with orders not to return.

Jim: "Here's a bet that has been overlooked."

John: "What's that."

Jim: "Why, the prices on Viking Sectional Bookcases have not raised."

John: "Well what do you think of that!"

Jim: "Yes, I'm on my way now to Hoover-Roush Co. to get mine; I hear they have a very fine line to select from just now—yes, and what's more they always were the best cases on the market for the money."
